This is an exceptional home. It's only seven years old but thanks to thoughtful design, it blends into the neighborhood as though it's always been there. As you walk through the front door the first thing you'll see is the beautiful hand-crafted inlay.

(There's a second one in the Office/Study!) The Kitchen is expansive and the custom cabinetry is abundant.

This home has a full basement and a finished attic. There's a screened porch out back and a patio for your grill.

The 2-car Detached Garage even has a loft! It's beautiful and probably the best home available at this price in Milford.

I'm so proud of this home you'll find ***over 100 pictures on the website.***
